

International Symposium on Emerging Information Security and Applications (EISA)

Call for Paper

With recent evolution of adversarial techniques, intrusions have become more complex that may threaten the security of various assets regarding information and applications. In addition, coordinated intrusions like worm outbreak can continue to be a major threat to information, system and network security in the near future. The popularity of Internet may generate a large volume of different types of sensitive information. Therefore, there is a need for emerging techniques, theories and applications to protect information and practical security.

The First International Symposium on Emerging Information Security and Applications (EISA) aims to provide a platform for researchers and practitioners across the world to exchange their ideas. It seeks original submissions that discuss practical or theoretical solutions to enhance the information and application security in practice.

Topics of interest include, but are not limited to the ones listed below.

- Cyber intelligence techniques
- Multimedia security
- Malware and unwanted software
- Vulnerability analysis and reverse engineering
- Usable security and privacy
- Intrusion detection and prevention
- Authentication and access control
- Anonymity and privacy
- Cryptographic protection
- Digital forensics
- Cyber physical systems security
- Adversarial learning
- Security measurement
- Security management and policies
- Hardware and physical security

Important Dates:

Submission Deadline: June 25, 2020

Acceptance Notification: July 25, 2020

Camera Ready: August 23, 2020

Paper Submission

All papers need to be submitted electronically through the website (<https://easychair.org/conferences/?conf=eisa2020>) with PDF format. Submitted papers must not substantially overlap with papers that have been published or that are simultaneously submitted to a journal or a conference with proceedings. Papers must be clearly presented in English, must not exceed 16 pages (or up to 18 pages with the pages over length charge) in Springer LNCS format (<https://www.springer.com/gp/computer-science/lns/conference-proceedings-guidelines>), including tables, figures, references and appendices. Papers will be selected based on their originality, significance, relevance, and clarity of presentation assessed by at least three reviewers. Submission of a paper should be regarded as a commitment that, should the paper be accepted, at least one of the authors will register and attend the conference to present the work.

Committees

Steering Committee

Jiageng Chen, Central China Normal University, China

Steven Furnell, University of Plymouth, UK

Anthony TS Ho, University of Surrey, UK

Sokratis K. Katsikas, Norwegian University of Science and Technology, Norway

Javier Lopez, University of Malaga, Spain

Weizhi Meng, Technical University of Denmark, Denmark

-General Chairs:

Liqun Chen, University of Surrey, UK

Omote Kazumasa, University of Tsukuba, Japan

-Program Chairs:

Weizhi Meng, Technical University of Denmark, Denmark

Jiageng Chen, Central China Normal University, China

Kuan-Ching Li, Providence University, Taiwan
